Workshop, short course, and demonstration days

Belgrade Art Hotel

Workshop

We have a 2-, 3- or 5-day workshop ready and it is being held in central Copenhagen the 5th-9th of October 2020.

The workshop consists of 3 modules:

- ERT
- **Ground based TEM**
- Airborne and ground based towed TEM

Read the full program and sign up here.

Short course

A Practical Guide to Multi-Dimensional ERT and TEM Surveys and Data Interpretation.

It is being held the 2nd of November at the 3rd Asia Pacific Meeting on Near Surface Geoscience & Engineering in Chiang Mai.

Free demonstration day

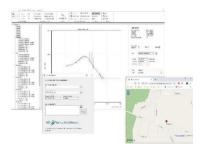

Free demonstration day

The 30th of August, we have a free demonstration day at the Near Surface Geoscience Conference & Exhibition 2020 in Belgrade, Serbia.

Read the full program and sign up here.

New releases of Aarhus SPIA and Res3DInv

Aarhus SPIA version 3.4 is out with these changes:

- New Geonics ProTEM importer. Now with support for all transmitter and base frequency combinations.
- Several bug fixes see <u>release history</u>.

Res3DInv is out in version 3.18.1 with these new features:

- An improved version of the 3D viewer with a new color scale editor.
- Option to automatically combine repeated data • points by taking the average of the apparent resistivity and IP values.
- Option to select number of CPU cores used in inversions.
- Several bug fixes see release history.

Conferences

All conferences have been postponed due to the Covid 19 virus. The new known dates are here:

- EAGE Near Surface Belgrade. September 2020 •
- EAGE Near Surface Chiang Mai. November 2020 •
- SAGEEP Denver to be announced
- EXPOMIN Santiago, November 2020
