## ***GCM white paper***

Aarhus GeoSoftware has a new white paper from a GCM survey at Kalbygaard gravel pit in Denmark where the DUALEM 421 system was used. The paper includes the project overview, data processing and inversion and results combined with borehole information.

Download the white paper here:

<http://www.aarhusgeosoftware.dk/white-papers>

## ***In development: WMS server support***

We are currently working on WMS server support. Users who don't have available maps from the survey area can always get maps from an online server.

## ***SAGEEP 2017 conference***

Aarhus GeoSoftware will be represented at booth #16. Come by for a demonstration or a talk. Contact us for meetings.
